

GreenBroz Precision Batcher System

GreenBroz Inc. (CBZ) Precision Batcher (Low Version)

Original Unit Price: \$135,000 USD⁽¹⁾

Date of original purchase: December 2018

The CBZ Precision Batcher accurately and efficiently packs cannabis flower (buds). It is the premier weigh batching equipment available to cannabis processors, as it is capable of handling large quantities of flower batching with minimal labor and minimal give-away

Product Includes:

- 1ph x 115VAC input voltage
- Machine elevation stand
- Dual inline check weighers with double packing bin output
- Operator work stand
- Programmable controller

Main Benefits:

- Ultra-fine weighing tolerance per piece and per batch, with a weighing resolution of 0.01 grams
- Accurately produce fixed weight batches, from 1 gram to 7 grams (user-defined tolerance)
- Capacity of up to 20+ batches per minute, depending on batch size
- GVS AirKush technology for gentle handling and moving of the product
- Powerful control programming, with built in calibration and diagnostics tools
- Minimal labor required compared to manual scales
- Manufactured in stainless steel and other non-corrosive construction materials
- Able to be connected to automatic bagging or jar filling equipment for even further reduction in labor
- Remote access for updating and service
- User friendly
- Easy to clean- 10 – 15 min.

Performance Specifications/Capacity:

- Max product length: 60 mm (2.25"); max product width: 45mm (1.8); min product weight (0.25g)
- Capable of 16-20 batches/minute (dependent on good quality raw material, acceptable individual piece sizes for batch size, and post-packaging process)

⁽¹⁾ Excludes shipping and freight
